FAO Gordon Craig

Dear Gordon,

I have consulted with the emergency planners within North Ayrshire County Council, which is responsible for the preparation of the Hunterston off-site emergency plan required by the Radiation Emergency Preparedness and Public Information Regulations (REPPPIR) 2001. They have provided adequate assurance that the proposed development can be accommodated within their off-site emergency planning arrangements.

The proposed development does not present a significant external hazard to the safety of the nuclear site.

Therefore, ONR does not advise against this development.

Kind regards

Steve
