Hi

In terms of the documents that you requested, I am afraid that the FOI search processes are still underway.

I do know however, that I did not write up a note of the Screening Meeting which was convened by NAC at Hunterston on 23 January 2017.

At that meeting, Peel Ports presented an outline of their overall project which was to transform the rig yard and coal yards into an oil-rig decommissioning facility. The changes required would involve different applications to regulatory bodies for individual aspects of the project. It was proposed that each of the different aspects of the project would be brought forward and assessed individually.

I can confirm that I advised the meeting that in my view, despite some of the individual components of the project being relatively minor, collectively, the overall project could potentially have a wide range of environmental impacts and that these might best be addressed through a formal (but well-tailored) Environmental Impact Assessment. I can recall that I was not alone in that view, however as I said above, I did not write up a note of the meeting so I probably limit my comments to my own contribution to the meeting. SNH is only an advisor on the issues involved and we do not have a role in determining the need for EIA.

Hopefully the FOI procedures will conclude in the near future.

Yours sincerely

Subject: Information

Dear [REDACTED],

Further to my FOI request regarding decommissioning at Hunterston, it would be very helpful if there would be any information you might be able to forward to me while I await the official response.

Thank you so much for your consideration

[REDACTED]
